

Addition Parts Within 20

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. How many objects are there altogether?

Group A

Group B

Answer: 5

2. Write an addition equation for the two groups.

Group A

Group B

Answer: $2 + 3 = 5$

The two parts combine into one total.

3. There are 2 birds. 3 more arrive. How many birds are there now?

Answer: 5

4. There are 5 counters. 2 are red. How many are blue?

Answer: 3

5. Draw two groups to show $3 + 2$.

Look for:

- Shows two parts with 5 objects altogether.

One possible response: 3 objects and 2 objects; 5 altogether.

6. Does $2 + 3$ have the same total as $3 + 2$? Explain.

Look for:

- Explains unchanged total rather than only saying yes.

One possible response: Yes. Both totals are 5; the same objects are grouped in a different order.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
