Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Apply the central idea to a toy with a sharp broken edge.

Look for:

- Considers safety rather than insisting on repair.

One possible response: Check whether it can be made safe; an adult should help and replacement may be needed.

2. Summarize the passage without adding a personal opinion.

Look for:

- Includes the central idea and important qualification.

One possible response: Repair may reduce waste, but condition and safety determine whether repair is appropriate.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
