

Compare Quantities Within Ten: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. One group has 3 dots and another has 5. Draw both groups, then add dots to make the first equal to the second.

Look for:

- Both completed groups contain 5 dots.

One possible response: Add 2 dots to the group of 3.

2. Three large buttons and five small buttons are shown. Which group has more buttons?

Look for:

- Distinguishes object size from the count.

One possible response: Five small buttons; compare number, not button size.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
