Two Views on a School Garden

Text A: A garden would let students watch plants change. It could connect science and writing. We should start with two small beds so watering is manageable.

Text B: A garden sounds interesting, but someone must care for it during breaks. I support a garden only if we make a care plan first. A small pilot could help us learn what work is needed.

1. What do both texts suggest about the size of the first garden?

2. What concern does Text B emphasize?
