

Analyze Balance and Negative Space: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Could this arrangement feel balanced without symmetry?

Look for:

- Distinguishes balance from identical halves.

One possible response: Yes. Different visual weights can balance asymmetrically.

2. Sketch an arrangement that uses empty space around a focal shape.

Look for:

- Uses meaningful negative space.

One possible response: A focal shape separated from other elements by clear space.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
