

Geometry: Graphing Points on the Coordinate Plane

Use the matching sheet ID when checking answers.

Examine the coordinate grid below. Identify the coordinates or plotted points.

1. Look at the coordinate grid below. What are the coordinates of point A?

Answer: B. (4, 2)

Starting at the origin (0,0), move 4 units right along the x-axis, then 2 units up along the y-axis. Point A is at (4, 2).

2. Look at the coordinate grid below. What are the coordinates of point B?

Answer: A. (1, 5)

Move 1 unit right on the x-axis and 5 units up on the y-axis. Point B is at (1, 5).
