

Compare a Data Pattern With a Claim: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Describe the overall pattern.

Look for:

- Uses an overall pattern rather than one row.

One possible response: Higher practice minutes are associated with more completed tasks in these records.

2. Does the table prove practice time alone caused the difference?

Look for:

- Separates association from causation.

One possible response: No; other conditions could differ.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
