

Two Meanings of Division

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Share 18 counters equally among 3 people. How many each?

Answer: 6

2. Make groups of 3 from 18 counters. How many groups?

Answer: 6

3. 24 stickers are shared among 4 children. How many each?

Answer: 6

4. 24 stickers are packed 6 per sheet. How many sheets?

Answer: 4

5. Write a multiplication equation to check $20 \div 5 = 4$.

Answer: $5 \times 4 = 20$

6. For $20 \div 5$, describe a story where 5 is the number of groups.

Look for:

- Distinguishes group count from group size.

One possible response: 20 objects shared equally among 5 groups gives 4 in each.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
