

Claims Evidence and Survey Limits: Apply and Create

Name: _____ Date: _____

Use what you learned to explain, construct or apply an idea.

An invented survey

Invented practice data or scenario; not a report of a real study.
In a fictional class of 24 students, 18 selected a garden as their preferred project. The writer claims: Every student in our town wants a garden. The survey included only this class and offered a choice between a garden and a mural. Students were not asked about other projects.

1. Write a claim the evidence supports.

2. What additional evidence would help describe town-wide preferences?
