

Food Web Arrows Show Energy Transfer: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Write the energy path from grass to bird.

Answer: grass → grasshopper → bird

2. If grass availability falls, what possible effect might occur?

Look for:

- Uses the modeled relationship.
- Does not claim an inevitable population result.

One possible response: Less food may be available for rabbits and grasshoppers.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
