

Use a Map Key and Grid Reference: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Why is the key needed before interpreting the letters?

Look for:

- Connects a symbol and its defined meaning.

One possible response: The same letter could stand for different features on another map.

2. Can this key alone tell how many meters separate two places?

Look for:

- Distinguishes a key from a scale.

One possible response: No; a distance scale is also needed.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
