

Use a Map Key and Grid Reference

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. What does W represent?

Answer: water station

2. What is at row 2, column 1?

Answer: a water station

3. How many benches are shown?

Answer: 3

4. Give the two water station references.

Answer: (2, 1) and (3, 3)

5. Why is the key needed before interpreting the letters?

Look for:

- Connects a symbol and its defined meaning.

One possible response: The same letter could stand for different features on another map.

6. Can this key alone tell how many meters separate two places?

Look for:

- Distinguishes a key from a scale.

One possible response: No; a distance scale is also needed.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
