

Complete a Mirror Pattern

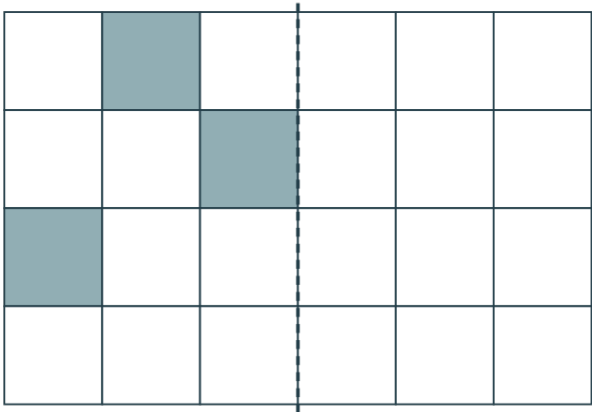

Name: _____ Date: _____

Use the material to work through each task. Show the requested response.

A mirror line

A matching square on the other side is the same distance from the mirror line. It stays in the same row.

1. The middle line lies between columns 3 and 4. Which column mirrors column 3?

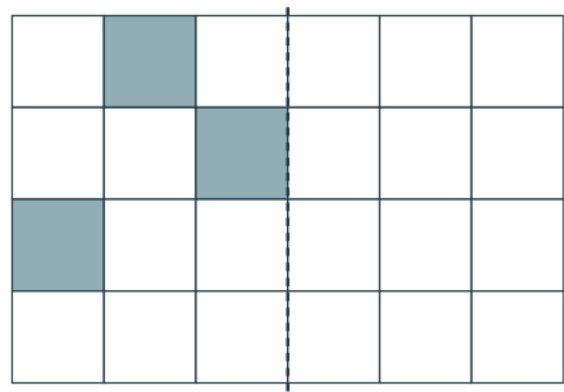

2. Which column mirrors column 1?

Complete a Mirror Pattern

Name: _____ Date: _____

3. Add reflected squares to the grid. Rows and columns are counted from the top left, starting at 1.

4. Which rule is correct?

☐ Same row and equal distance	☐ Any square on the right
☐ Change every row	

5. Draw your own symmetrical pattern.

6. How can you check your pattern?
