

Complete a Mirror Pattern: Practice Independently

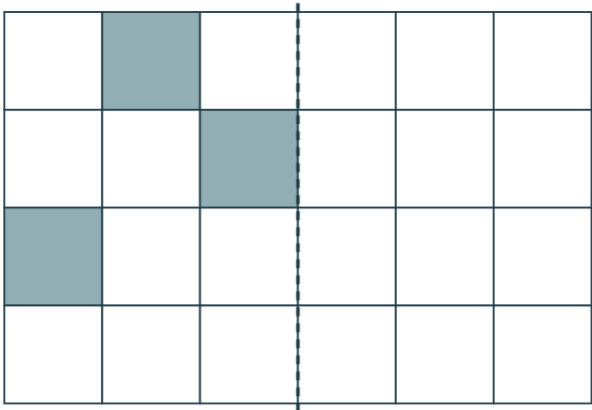

Name: _____ Date: _____

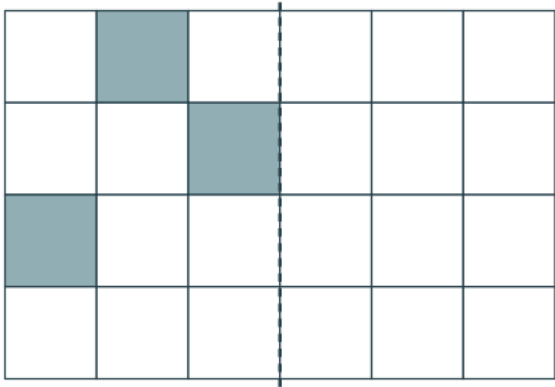

Use the material to work through each task. Show the requested response.

A mirror line

A matching square on the other side is the same distance from the mirror line. It stays in the same row.

1. Add reflected squares to the grid. Rows and columns are counted from the top left, starting at 1.

2. Which rule is correct?

☐ Same row and equal distance	☐ Any square on the right
☐ Change every row
