

Equal Groups Arrays and Multiplication: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Draw an array for 3×5 .

Look for:

- Shows equal rows and columns.

One possible response: 3 rows of 5 or 5 rows of 3; 15 dots.

2. Can groups of 2, 3 and 4 objects be shown as 3 equal groups? Explain.

Look for:

- Recognizes that multiplication of equal groups needs one consistent group size.

One possible response: No; the group sizes differ.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
