

Plant Parts Have Jobs: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Match each function to a plant part.

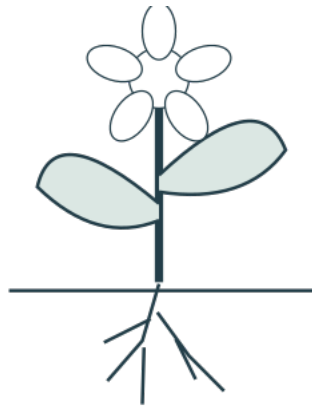

Roots: Takes up water

Leaves: Helps make sugars using light

Stem: Supports the plant

Use the functions in the material.

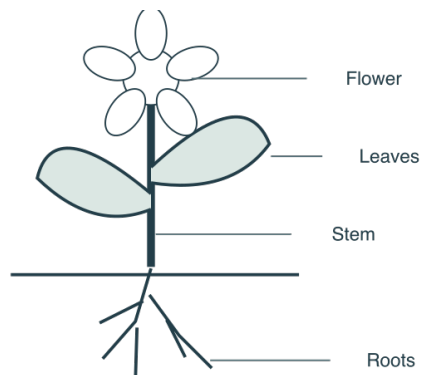

2. Label roots, stem and leaves on the pictured familiar plant.

Look for:

- Labels all requested parts in plausible positions.

One possible response: A plant with labeled roots below the stem and leaves attached above.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
