An invented process record

Invented practice data or scenario; not a report of a real study.
Draft 1 used many details. Draft 2 removed unrelated shapes. Draft 3 improved alignment and kept one focal point. A process record helps explain choices, not merely name a favorite version.

1. What changes in Draft 2?

2. What changes in Draft 3?

3. Explain a possible reason for removing unrelated shapes.

4. Describe one creative choice and what evidence could show its effect.

5. Propose a next iteration and criterion.

6. Why is I like it insufficient as a complete evaluation?
