

Understand Regrouping in Addition: Apply and Create

Name: _____ Date: _____

Use what you learned to explain, construct or apply an idea.

Exchange, then combine

For $27 + 15$, combine 2 tens and 1 ten, then 7 ones and 5 ones. Twelve ones become 1 ten and 2 ones. The total is 42.

1. Solve $23 + 14$. Is exchanging ten ones necessary?

2. A student writes $27 + 15 = 312$. Explain the error.
