

Exchange a Ten to Subtract

Name: _____ Date: _____

Use the material to work through each task. Show the requested response.

Keep the value equal

For $42 - 17$, represent 42 as 3 tens and 12 ones. Subtract 1 ten and 7 ones. The result is 2 tens and 5 ones.

1. Rewrite 51 as tens and ones so there are at least 8 ones.

2. Solve $63 - 28$.

3. Solve $72 - 46$.

4. Solve $54 - 19$.

5. Use addition to check $61 - 27 = 34$.

6. Why does 5 tens and 2 ones equal 4 tens and 12 ones?
