An invented shared-space meeting

Invented practice data or scenario; not a report of a real study.
Residents use a shared room. One proposal reserves one quiet hour each evening. Another allows games at all times. Readers want quiet; players want time to gather. The group can also consider a schedule with both uses.

1. Name two groups with different needs.

2. What does the quiet-hour proposal reserve?

3. Give a reason supporting the quiet hour.

4. Give a concern about reserving the room.

5. Suggest a schedule responding to both groups.

6. What should the group check after trying the schedule?
