

Geography and Settlement Choices: Apply and Create

Name: _____ Date: _____

Use what you learned to explain, construct or apply an idea.

Two invented settlement sites

Invented practice data or scenario; not a report of a real study.
Site A lies beside a river with water and fertile floodplain soil, but it sometimes floods. Site B is on higher land farther from water, with less flood risk. This is a simplified fictional comparison, not a description of one ancient civilization.

Site	Advantage	Challenge
A	Water and fertile soil	Flood risk
B	Less flood risk	Farther from water

1. What information would help choose a site?

2. Why should this model not explain every ancient settlement?
