

Read a Timeline and Ask Questions

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Which event happens first?

Answer: the bridge opens in 1900

2. How many years separate the library and rail stop?

Answer: 15 years

3. Order the events.

Order: Bridge opens → Library opens → Rail stop opens → Park opens

Use the dates.

4. What happens after the rail stop opens?

Answer: the park opens

5. Does the timeline prove the bridge caused the library to open?

Look for:

- Separates before/after from cause.

One possible response: No. Order alone does not prove causation.

6. What evidence could help investigate why the library opened?

Look for:

- Suggests evidence connected to the question.

One possible response: Contemporary records, meeting notes or accounts describing its planning.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
