

Complete a Mirror Pattern: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

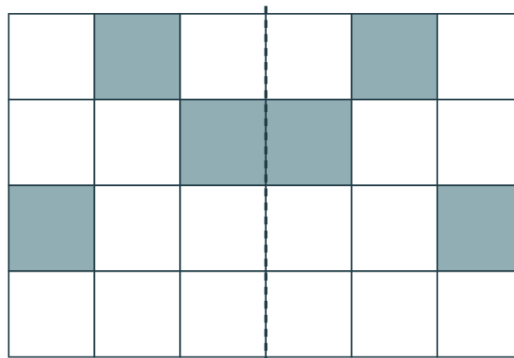

1. Add reflected squares to the grid. Rows and columns are counted from the top left, starting at 1.

Look for:

- Keeps matching rows.
- Keeps equal distances from the line.

One possible response: Row 1 column 5, row 2 column 4, row 3 column 6, using one-based labels.

2. Which rule is correct?

Answer: Same row and equal distance

A reflection preserves the row and distance.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
