

Group Durations Into Measures: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Why does the number of notes alone not tell the number of beats?

Look for:

- Distinguishes note count from duration.

One possible response: Notes can have different durations.

2. Does every piece use four-beat measures?

Look for:

- Recognizes other meters.

One possible response: No. This task specifies one measure length.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
