

Make Ten in Different Ways: Explore and Explain

Name: _____ Date: _____

Explore the material. Talk through your reasoning with suitable support.

Ten has two parts

If the whole is ten and one part is six, the other part is four. The equation is $6 + 4 = 10$.

1. Fill in: $7 + \underline{\quad} = 10$.

2. Fill in: $\underline{\quad} + 2 = 10$.
