

Compare a Data Pattern With a Claim: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Would predicting a result at 500 minutes be well supported by this table?

Look for:

- Recognizes extrapolation limits.

One possible response: No; 500 is far outside the observed range.

2. Suggest information that would improve the comparison.

Look for:

- Names a relevant condition or additional observation.

One possible response: Comparable task difficulty, starting skill and repeated observations.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
