

Two Meanings of Division: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Write a multiplication equation to check $20 \div 5 = 4$.

Answer: $5 \times 4 = 20$

2. For $20 \div 5$, describe a story where 5 is the number of groups.

Look for:

- Distinguishes group count from group size.

One possible response: 20 objects shared equally among 5 groups gives 4 in each.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
