

Read Fractions of One Whole: Check Your Understanding

Use the matching sheet ID when checking answers.

Work through these tasks. Use the answers afterwards to discuss specific strengths and next steps.

1. What fraction is shaded?

One whole split into
equal parts

Answer: $\frac{4}{6}$

2. Divide one whole into five equal parts and shade two.

Look for:

- Has equal parts and exactly two shaded.

One possible response: 2 of 5 equal parts.

3. For the same whole, which is larger: $\frac{1}{4}$ or $\frac{1}{8}$?

Answer: $\frac{1}{4}$

4. A shape is split into four unequal pieces. Does one selected piece necessarily represent one fourth?

Look for:

- Uses the equal-parts condition.

One possible response: No; fourths require four equal parts.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
