

Count Coins and Plan a Purchase: Apply and Create

Use the matching sheet ID when checking answers.

Use what you learned to explain, construct or apply an idea.

1. Pay 60 cents for both items. What change is needed?

Answer: 5 cents

2. Are five pennies worth more than two dimes? Explain.

Look for:

- Uses value rather than number of coins.

One possible response: No. Five pennies are 5 cents and two dimes are 20 cents.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
