1. Where is the figure placed?

Answer: near the bottom

2. What leads toward the figure?

Answer: thin lines

3. Suggest an effect of the wide empty space.

Look for:

- Uses the empty space as evidence.

One possible response: It could suggest isolation, openness or scale.

4. How could the lines affect attention?

Look for:

- Connects a visual feature and effect.

One possible response: They may guide attention toward the figure.

5. Sketch a revision that creates a different effect.

Look for:

- Changes a relevant feature.

One possible response: Move the figure closer to another element or fill more space.

6. Why can more than one interpretation be reasonable?

Look for:

- Supports interpretation rather than claiming certainty.

One possible response: Visual choices can support different readings when evidence is explained.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
