

Explain Water Cycle Processes: Practice Independently

Use the matching sheet ID when checking answers.

Use the material to work through each task. Show the requested response.

1. Name two forms of precipitation.

Look for:

- Names two appropriate forms such as rain, snow, sleet or hail.

One possible response: Rain and snow.

2. After reaching land, name one path water can take.

Look for:

- Uses a path described in the material.

One possible response: Flow over land or soak into the ground.

Open responses use criteria and an illustrative response. Other well-supported responses can be acceptable.
